HERE AND YONDER.
Don't forget that it was collec-
tor Buck who said it. A. J. Mat-
thews pays as much in taxes as
2000 of the working class—the
poor. Since property rules, the
biggest fool in the county ought
to be able to see why Mr. Mat-
thews has as much to say in the
affairs of government as the two
thousand suckers who throw up
their hats, shout vote and im-
agine themselves a part of this gov-
ernment.
John Enderle, of near Kelso, was

for the Scott County Mutual Fire
Insurance Society and was here

LET'S GET BUSY AGAIN.
During the past two months it
has been "tight times" with the

is with you. The month is half

PAYING FOR VOTES.
Capitalists can easily pay \$100
each for a majority of the votes
in the nation at each election
and make money on the deal.
Seven millions is a majority and
at \$100 each it would amount to
\$700,000,000 to pay for votes
each two years. The profits to
the capitalists by controlling in-
dustry through the control of
government is many times this
amount each year. Rather than
lose control of government they
could and would pay this sum to
each voter, if they could not fool
them and buy them for less. Just
the profits on the one item of
railroad ownership could afford
to pay this vast sum every two
years rather than lose their
graft. With such a condition, do
you wonder at the bribery and
corruption that you hear so
much of? Under Socialism, when
all the industries are collectively
owned and operated for use and
not for profit, there would be no
incentive for any bribery for the
control of government. No one
would have the great ownership
and the great profits coming to
them that would enable them to
pay for votes or other acts of
venality. Remove the cause—

profit—from the equation and
the solution is simple and abso-
lute.—Appeal to Reason.

OH, YES; HE HAD.
Our Socialist brother of the
Portageville Critic observes:
"Mr. Capitalist, you are on your
last legs; did you know it?" Evi-
dently the brother had not read
the supreme court decision in the
Standard Oil case when he wrote
that.—Jackson Cashbook.
Oh, yes; he had. It is these
supreme court decisions that
convince us Socialists more and
more that capitalism is on its
last legs. Twenty years ago it
was considered sacrilege to ques-
tion a court decision. Today ev-
erybody understands the courts.
And "the courts of justice are
the bulwark of our liberties," say
the capitalists—and it's no joke.
Hard as the capitalist press
has tried to make it appear that
the recent decision in the Stand-
ard Oil and Tobacco Trust cases
were against the trusts, yet all
with a spoonful of sense know
better. The court did what con-
gress was afraid to do—wiped
out the Sherman anti-trust law.
Combinations that do not "un-
derstand" restraint trade and are
dually "reasonable" are now legal-
ized.
When courts have to resort to
such as that, it proves that the
end is near. If there was any
way to prove it, I'd bet a horse
that lawyers of the trusts that
were "busted" wrote the deci-
sion.
By-the-way, how would it suit
you to have a decision handed
down to the effect that "reason-
able" theft or "reasonable" ad-
ultery was permissible? It
would be no more ridiculous than
this last feat of our highest court.

DESPERATE.
An American visiting London
for the first time was goaded to
desperation by the incessant ne-
cessity for tips. Finally he en-
tered a washroom in his hotel,
only to be faced by a large sign
which read, "please tip the bas-
sin after using."
"Never!" said the Yankee,
turning on his heels. "I'll go dirty
first!"
